

LIPIL*

Managing Cow's Milk Allergy,
without Compromise

First for Cow's Milk Protein
Allergy/Intolerance

- Clinically proven to manage the symptoms of CMA/I¹
- The UK's leading hydrolysed hypoallergenic formula - over 68 years clinical experience
- **Nutramigen LIPIL* 1** suitable from birth
- **Nutramigen LIPIL* 2** with increased calcium, suitable from 6 months onwards

LIPIL*, the **FIRST** LCP blend with a **DHA** level scientifically recognised by EFSA[†] to support visual development

First for Lactose
Intolerance

- For common infant feeding problems due to lactose intolerance
- Well accepted – cow's milk based formula
- Lactose free

First for Reflux

- Effective for infant reflux²
- Easy to feed,
– fluid in the bottle
– thick in the stomach
- Well tolerated & easy to digest²

EFSA confirms 0.3% DHA
contained in LIPIL improves
visual development
at 12 months¹⁻⁵.

Complete range enriched with LIPIL*

IMPORTANT NOTICE: Breastfeeding is best for babies. The decision to discontinue breastfeeding may be difficult to reverse and the introduction of partial bottle-feeding may reduce breast milk supply. The financial benefits of breastfeeding should be considered before bottle-feeding is initiated. Failure to follow preparation instructions carefully may be harmful to your baby's health. Parents should always be advised by an independent healthcare professional regarding infant feeding. Products of Mead Johnson must be used under medical supervision. Information for healthcare professionals only.
